

Mehmet Ersin CERİT

Computer Engineer & Geomatics Engineer

PROFILE

I focus on developing software-based solutions for complex engineering problems by utilizing the analytical perspective gained from the disciplines of Geomatics and Computer Engineering. I am an engineer open to learning and continuous development, aiming to provide added value to projects in various sectors by combining my technical skills with data management, software architectures, and modern development tools.

EXPERIENCE

Data Analyst | AYD Otomotiv; Selçuklu, Konya *May 2025 – September 2025*

Played a role in analyzing factory production data using SQL. Developed web-based solutions for equipment information and technical documentation processes.

Intern | Konya Şeker (Anadolu Birlik Holding); Meram, Konya *February 2025 – May 2025*

Gained experience in Enterprise Resource Planning (ERP) processes using SAP ABAP. Experienced web-based software development stages through the C# ASP.NET architecture.

Intern | KGM (General Directorate of Highways); Selçuklu, Konya *June 2019 – August 2019*

Gained experience in technical data collection and digital map production during the survey, design, and field phases of highway projects.

Intern | İSBAK; Kağıthane, Istanbul *June 2018 – August 2018*

Gained experience in system analysis and the integration of spatial data into software architectures for smart transportation systems and urban information technology projects.

EDUCATION

Selçuk University | Computer Engineering, Selçuklu, Konya – 2.85 GPA, 2026

Anadolu University | Web Design and Coding, Eskişehir – 2.81 GPA, 2022

Çanakkale Onsekiz Mart University | Geomatics Engineering, Çanakkale – 2.33 GPA, 2020

SKILLS

Java (OpenJDK), C# (ASP.NET), SAP (ABAP), SQL, HTML/CSS, React, Swift (Beginner).

Bayrampaşa, Istanbul – Selçuklu, Konya
